

Kaptelinin

Amendment B

Page 3 of 3

Last Office Action stated that the step of "receiving a scroll initiate events" is inherently included by Kelly et al., US Patent #6,738,084 (Office Action mailed February 10, 2005, p. 3, last line).

Applicant agrees that Kelley's teaching inherently includes receiving a scroll initiate event. The same obviously applies to the present invention. Therefore, the step of "receiving a scroll initiate event" in former claim 27 is redundant and can be deleted without adding a new subject matter or broadening the scope of the invention.

Conditional request for constructive assistance

If, for any reason, this application is not believed to be in full condition for allowance, applicant respectfully requests the constructive assistance and suggestions of the Examiner pursuant to MPEP § 706.03(d) and § 707.07(j) in order that the undersigned can place this application in allowable condition as soon as possible and without the need for further proceedings.

Very respectfully,

Viktor Kaptelinin
